Modern Cairo must be a sort of gam-bler's paradise, judging from some facts which I recently had from a friend who has been investigating the subject. In one of the principal streets near Mohammed Ali square a gentleman was knows the town well pointed out over twenty first foors over the shops with the names of bars upon them, every one of which he knew to be a gambling hell, and a police official admitted to the investigator that the town was full of such piaces. lice do not seem to be at fault. They raid the places from time to time, but the offenders, nearly all foreigners and mostly Greeks, are protected by their consuls and let off lightly and return to the business the next day. I should guess that the business is chiefly car-ried on for foreigners as well as by them. There is a sort of cosmopolitan-ism about gambling, and its votaries are drawn from all corners of the earth by the scent of the game, But this seems to be one respect in which Egypt has not improved under British influence.-London Truth.

A Queen's Cold Cure

"You have a cold, ch?" said the phy-sician. "Well, suppose I give you the same prescription that Queen Eliza-

He took down an ancient folio "Dr. William Bulleyn's prescription for a cold, which Queen Elizabeth used all her life, was this," he said.

"Takes nutmegges, the root called dornike, which the apothecaries have; setwall, gatangall, mastike, long pep per, the bark of pomecifrone, of melon of sage, hazel, marjorum, dill, spiknard, wood of aloes, cubebe, cardamon (called graynes of paradise), lavender, peniroyalls, the bone of a hart's heart grated, cut and stamped, and beat your spices grossly in a mortar. ambergrice and musk, of each half a dram. Distil this in a simple aqua vitae, made with strong ale, in a ser-pentine. To tell the virtue of this water against cold, phlegme, dropsy, heaviness of mind, coming of melan choly, I cannot well at the present, for it is too great."—Philadelphia Bulletia.

The Exchequer.

In past times it was the custom for the king's justiciar and his subordi-nates to make up the royal accounts twice a year, at Easter and Michaelmas, on a table which was the most striking object in the chamber in which they assembled. This table was covered with dark russet cloth divided into squares, which gave it a checkered, chessboard-like appearance, and in the columns and spaces the accounts rendered by the sheriffs and great landowners who attended for that purpose, were entered and reckoned up. It was the checkered cloth, so conspicuous throughout the proceed-ings, that gave rise to the name exchequer, just as the stars painted on the ceiling of another historic room originated the name "star chamber."— London Globe.

The Doctor In the Duel.

A medical man in France was asked to be present at a duel in his professional capacity. He got up early, traveled some miles, "flamed" the swords and ministered to his client, who was slightly wounded. When both honor and wound were healed he looked for his fees and sent in a bill for \$10. The patient replied through his wife, who wrote: "I am told that between men there is a question of delicacy which forbids even the slightest appearance of trade in such a matter. Neither the doctors nor the seconds are brought on the ground for money. If you persist in your claim I shall, to my great regret, be obliged to leave to others the duty of settling this fine point with

A New Language Method.

If a person has, as the Celts say, only, one side to his tongue" and wishes to add to his resources in the matter of language it might be well for him to apply to an old man in Scotland, whose methods of instruction are simple. They are described in "Scenes In Scotland" by Mr. Sinclair.

A lady visiting in the north of Scot-land wished to get some idea of the Gaelic and employed an old native to give her a course of language lessons. The Scotsman took the Bible for the text book, and, opening it at the be-ginning of Genesis, he said: "Now, ma'am, I'll read this to you

in the Gaelic, and you'll see yourself

It will go."

With solemn Intonation and an ap pealing, trlumphant glance toward the lady at the end of every clause, he loudly read the first four verses and paused to watch the effect. Then he said in a tone of deep conviction; "Now, ma'am, if you'll take your

own Bible and turn to that chapter and read it in English you'll see it's just

the selfsame thing."

The old man was much surprised that the lady did not continue her lessons.

Lew Wallace's Unwritten Novel.

General Lew Wallace had in mind an American novel. He once said that it was his intention to write this story after he had completed his memoirs. His theme was the striving of Americans to accomplish wonderful things in an incredibly short time. His hero was to be a restless American who lived for few years in Europe, then in Australia, in Africa and in South America and who finally, after years of wander ing, returns to his own country only to start again upon his journey, never satisfied, never happy, the spirit of an Indian within him and the childlike de-sire to see new scenes. In each of these countries his hero was to accomplish worthy deeds, and when he returns to his own country it is with the intention of leading the life of a son of the soil, but his hero finds he cannot do so. The story would have been sugges-tive of "The Wandering Jew," with the element of religious controversy eliminated.-Success.

Leprosy. Smallpox, or variola, was not known to the Romans before the sixth century Leprosy is as different from it as palsy is from St. Vitus' dance. What is this awful disease? Something endemic, chronic, malignant, with cutaneous lesion. It is a scablous affliction of a dreadful character, attacking nations negligent of cleanliness and the decencles of life. All that France and Eng land gained by engaging in the cru-sades was leprosy, and of all that they took leprosy was the only thing that remained with them. In olden times every man laboring under the disease was imprisoned like a thief or a robber Moth holes and the mildew on walls were believed to be the effects of leprosy.-New York Press.
